5550 West Executive Drive • Suite 400 • Tampa, Florida 33609

Tel: 813-433- ABPS (2277) • Fax 813-830-6599 • www.abfmo.org

Welcome to Family Medicine Obstetric Physicians:

The American Board of Family Medicine Obstetrics® (ABFMO®) is pleased to announce this nation's first nationally recognized board certification *for Family Physicians with advanced clinical and surgical training in maternity care.*

ABFMO was formed to fill a definitive need for family medicine obstetric physicians. It is important to note, that some of the Board Members of the American Board of Family Medicine Obstetrics are dual-boarded physicians -- board certified by Member Boards of the ABPS, and also board certified by Member Boards of the American Board of Medical Specialties (ABMS) and board certified by Member Boards of the American Osteopathic Association Bureau of Osteopathic Specialists (AOABOS). This is a unique and distinguishing issue.

ABFMO does not differentiate between allopathic and osteopathic physicians and eligibility is also extended to physicians practicing in Canada.

All examinations will be computer based.

Our website contains pertinent information, supporting documents and documentation. We invite you to review and consider applying for an exciting new specialty and board certification.

Questions and inquires are welcome by contacting us at 813-433-2277, or cnewby@abfmo.org.

We look forward to serving your important needs in board certification in family medicine obstetrics.

Thank you,

American Board of Family Medicine Obstetrics
